

# Options and accessories

## Closed circuit cooling towers

## Options and accessories

Below is a listing of the main Nexus<sup>®</sup> options and accessories. If your required option or accessory is not listed, look no further than your [local BAC representative](#).

### Water Treatment Solutions

Discover the water treatment solutions available for the Nexus Modular Hybrid Cooler.

### Electrical panel heater

Protects electronic components in the iPilot<sup>™</sup> electrical panel during extremely cold temperatures.

### Basin heater package

Our factory-installed heaters prevent the cold water basin from freezing and damaging the unit during shutdown or standby.

## Flanges

Flanges facilitate **piping connections** on-site.

## Positive closure dampers

Use positive closure dampers (PCD) **to minimize the heatloss due to convection** by preventing airflow through equipment that is shut down.

## BMS supervision

This option integrates the iPilot™ Control System in your Building Management System (BMS).

## Side stream UV system

The side stream UV system provides a factory installed chemical free biocide system, further guaranteeing the operational safety of the Nexus modular hybrid cooler.
